Pooja presents keynotes and workshops with thousands of educators in K-12 and higher education around the world. Here's what they say about her professional development.

“Excellent presentation today. It was by far the best I saw because Pooja not only addressed the question of ‘What?’ in our conversation, Pooja addressed ‘How?,’ which I found to be lacking in the rest.” (University Professor)

“Since Pooja came, I’ve been so much more mindful about challenging students to practice retrieval. And I’m getting very good results. I am so glad to have her valuable training.” (High School Teacher)

“I spent 20 years as a faculty member and about a dozen as the director of two teaching centers. I know good work when I see it, and Pooja’s contribution is both unique and necessary in today’s higher ed world.” (University Administrator)

**100% of 45 high school teachers agreed or strongly agreed that Pooja is knowledgeable about the subject matter. 95% agreed or strongly agreed that Pooja is organized and well-prepared.**
